Cardholder Signature : _____

Date :

Below are explanations of some of the fields on the first page of this form.

Final Payment: The amount due for your tour reservation minus the prepaid deposit (and any other partial payments). For most tours, the final payment due date is 75 days prior to departure. The due date for your tour will be shown when you book online and in your booking confirmation email. If you are booking a tour close to the departure date (Usually one that departs in less than 75 days), your final payment may be due within 72 hours.

Optional Tours: Many of our Tour Packages feature optional discounted tour packages to popular sites. Please see the tour page to find out if an optional tour package is available for pre-purchase for your tour. (Some optional tours may only be purchased at your destination, and these are noted on the tour page.) To purchase an optional tour package, add the package cost for each traveller in your party who wishes to take the package to your final payment.

Security code: A 3- or 4-digit number on your credit card which is not part of the credit card number. The number appears only on the credit card itself (not on receipts or statements), so provides some assurance that the physical card is in the possession of the buyer and reduces the chance of fraudulent card use. For American Express Card, it is the 4 digit number printed on the right side above the imprinted card number on the front of the credit card.
